

Forensic Biography on James K. Appleton

James K. Appleton is an expert witness with over 28 years of experience as a legal consultant specializing in audio and video analysis and enhancement. Since 1988, he has completed work on more than 1,100 legal cases requiring expert analysis of audio and video data. He is highly regarded and experienced in criminal cases, including murder, attempted murder, sexual abuse, assault and robbery.

Most recently, his services have been utilized by:

- The Department of Homeland Security
- The United States Marshall's Office
- The Public Defender's Office
- The United States Attorney's Office
- The United States Secret Service
- The Federal Bureau of Investigation
- The Dallas County District Attorney's Office
- The McKinney District Attorney's Office
- The Dallas Police Department
- Attorneys, District Attorney's and Police Departments throughout the United States

In addition to his vast forensic work on criminal cases, Mr. Appleton has analyzed audio and video data on behalf of corporations, including McDonald's, Jack in the Box, Wendy's, Greyhound Bus Lines and 7-11. Numerous restaurant chains and a variety of national insurance companies have utilized Mr. Appleton's experience regarding "slip and fall" accidents and assorted legal claims.

In the past 26 years Mr. Appleton has assisted both prosecution and defense attorneys in government cases, capital criminal cases and civil insurance cases. He possess a thorough understanding of the critical importance in which video and audio analysis support today's legal system. He personally completes 90% of the forensic work fulfilled through Showcase Productions.

Mr. Appleton is also the co-owner of Showcase Productions, a video production facility, which provides the following services:

- Accident recreation using 2D and 3D graphic animations
- Producing, video recording and video editing of crime scene re-enactments
- Video recording of depositions in various locations.

Mr. Appleton received his economics degree from Dartmouth College in 1970 then furthered his studies at Tulane University Business School for his graduate work in finance.
