Worldwide Patents Pending

Ammunition Manufactured by CCI/Speer
2299 Snake River Avenue
Lewiston, Idaho 83501

WARNING: Keep out of reach of children.

WARNING: To avoid serious injury: (1) use only ammunition in good condition; use only in modern firearms in good condition marked for .22 Long Rifle (LR) cartridges; (2) always be sure barrel is free of any obstructions; the barrel should be checked in case of light recoil, or an unusually loud or weak sound heard during firing; (3) wear eye and ear protection; (4) if gun fails to fire, avoid exposure to breech when unloading and point muzzle in a safe direction. Keep firearm pointed in safe direction at all times; (5) discharge may occur if rim is struck; handle with caution, do not drop. (6) Do not shoot at hard surfaces or water to prevent ricochet; (7) Bullet is capable of traveling extreme distances. Know your backstop; (8) Store in cool dry place.
