Special Report

Pop goes the Bush mythology bubble

Part VI: Allow me to Introduce you to 9-11 Evidence Bush does not want you to know about.

By Karl W. B. Schwarz

Online Journal Contributing Writer

The commentary today is yet another open letter to [Eliot Spitzer, Attorney General for the State of New York and William Casey, Chief Investigator for the Attorney General's Office](#). In fact, this was hand delivered to Mr. Spitzer's office before it was published as were Parts I through V that preceded this one.

I am going to introduce you today to Todd Engstrom, deceased, and according to several sources that know him, was a key player in a post-9-11 payoff. I have been looking all over the world for such a person. [Since I met Bidas Corporation in 1999 – and they had the contract with the Taliban for a key pipeline](#) - I was one American that did not buy off on the Bush Lies and Mythology regarding 9-11 for even a minute.

In addition to people coming forward with hard information about Todd Engstrom, a former Bidas Corporation person has come forward as well to fill in blanks and all things point to one thing – 9-11 was staged to take over the Caspian Basin oil and the pipeline needed to get that oil to the oceans.

Even the U.S. alleged problems in the Ukraine are tied to the Caspian Basin and the bogus glory of the Bushland Oil Empire they think they can pull off and dump the entire cost of acquisition and cost of security back on the backs of the U.S. taxpayers. Yes, they are that stuck-on-stupid, and no, more and more Americans are not buying their lies.

[Mr. Engstrom was from Galva, Illinois](#), married, lived in Athens, Illinois, and worked for a Tennessee based company for a while. Survivors are his wife, eleven-year-old son, and parents who still live in Illinois.

He was killed on the way to Balad, Iraq by an RPG attack on his vehicle. Admittedly, that is not that unique as many Americans are dying in Iraq due to RPG attacks and even IEDs, but this one is quite different. Todd Engstrom was involved in something on 9-11-2001 and the next day 9-12-2001 that might be why he was killed. Read on and you will better understand.

[A recent newspaper article](#) established that [EOD Technology](#) has lost at least five (5) employees in Iraq, the most recent being a man from my home state of Arkansas. It was this article that started the chronology – in their own words – as to when Mr. Engstrom was in fact in Bosnia. Our sources indicate that Mr. Engstrom actually worked for Blackwater USA and was a security person for EODT.

“EODT confirmed in a press release the latest deaths on Friday of Aaron Iversen, 38, and David Randolph, 33, during an insurgent attack on their military convoy near Baghdad. Both were former Marines. Iversen was a Dallas native who lived in Marion, Ark., near Memphis with his wife and daughter. Randolph grew up near Greeneville, Tenn., and lived in Conway, S.C., with his wife and four children.

In September, another EODT employee, Todd Engstrom, 35, of Athens, Ill., was killed while traveling in a convoy on his way to Balad, Iraq. Engstrom, who had commanded a special-forces team for the United Nations in Kosovo between 2000 and 2002, headed security at a camp used by U.S. military and contractors near Fallujah.”

Prior to being in Iraq, Mr. Engstrom was involved in Kosovo with the [Special Operations Group of UNMIK](#) (United Nations Mission in Kosovo) police training work.

“Currently stationed outside the continental United States, Todd is the Director of Training and an Operator for a United Nations Special Operations Group. This unit consists of 25 U. N. certified "high-risk" Operators from around the World. Their primary responsibilities include "high-risk" arrests of international criminals/terrorists and providing close protection for international war crime judges, prosecutors, witnesses, terrorist/war criminals and principals the U. N. deems as "high-risk".”

Isn't it amazing they are never sent to arrest the war criminals for which they work?

Following his work in Kosovo, Mr. Engstrom was reportedly [hired by Blackwater](#) to provide security in Iraq to [EOD Technology, Inc.](#), a company based in Lenoir, TN near Knoxville. Both [Blackwater and EOD have done quite well](#) under the Bush War Policy and Oil Policy.

Some time shortly after the attacks on 9-11-2001, a military (or CIA or private contractor like DynCorp or Blackwater) plane was loaded in Kosovo with a very large sum of money and that plane then flew to an airbase or airport probably in either Turkmenistan or Uzbekistan. The plane did not have windows for sightseeing. From there, large crates of money were loaded into helicopters and flown into the northern areas of Afghanistan. Mr. Engstrom reported that to his relatives and said the military base appeared to be an aged Russian military base. Mr. Engstrom was one of the guards sent along to protect that money and that post-9-11 payment.

Stop and think a minute – Kosovo is not exactly a world banking center and the likelihood that such large sums of money were just laying around, all boxed up and ready to deliver to 9-11 doers, was probably not a “readily available item”. That means someone had “foreknowledge”, had already positioned the money in Kosovo, 9-11 happened and the shipment was then sent forthwith as planned. The delivery of that very large sum of money was made on September 12, 2001 according to Mr. Engstrom before he met his demise in Iraq.

Odds are – his demise was planned and he probably did not see it coming.

Now, bear in mind that a flight leaving Kosovo headed east would have flown over Romania and parts of the Ukraine, or if they swung further south, over Turkey and Azerbaijan. Figuring they took the direct route, since no one knew about the flight at the time, we have asked Russia and the Ukraine if they happened to have tracked this particular flight on the time and date in question.

The northern part of Afghanistan has been controlled for years by [General Rashid Dostum](#) an Uzbek that fought in the Russian – Afghanistan war on the side of the Russian Afghanistan

Communist government. No mystery in that, since Uzbekistan is a former Russian state, he is Uzbek, not Afghani.

Where it gets interesting is that the [Taliban and General Rashid Dostum had signed agreements with Bidas Corporation](#) to allow the building of a crucial pipeline across Afghanistan, and George H.W. Bush and George W. Bush and their Big Oil buddies wanted control of that pipeline. On 9-11-2001, the Turkmenistan government had been flipped and was backing U.S. interests, and the Bhutto government in Pakistan had been flipped and it had also signed agreements with Bidas Corporation that were suddenly useless. [The last remaining obstacle was Taliban and Bidas Corporation.](#)

[“Bidas signs agreement with Taliban and Gen. Dostum to build pipeline.](#) [Author’s note: 1995-1996]”

[The last remaining obstacle was to get the Taliban / Bidas Corporation removed](#) so U.S. interests could take over the pipeline that was needed to get the landlocked Caspian Basin oil to the ocean for shipment around the world. The triggering event was 9-11 so the American public would condone the use of force against Afghanistan.

But, back up a minute – they did not bother to tell any of us that there was a huge payoff to General Rashid Dostum or someone else in Northern Afghanistan the day after 9-11. That is very important – so remember it. The Bush Administration has not been forthcoming with those facts and neither has the *9-11 Omission Commission*. There are members sitting on that 9-11 Commission directly benefiting from what you are reading here and that is why they are so desperate to get this lame duck Congress to enact their Patriot Act II measures to protect their sorry butts from treason and misprision of treason charges.

When one is involved in a Truth Movement and making it clear to all that his only interest is the truth regarding 9-11, potential pieces of evidence show up from the most unlikely places as did happen on November 21, 2004.

“Mr. Schwarz:

This comes from a friend of mine who worked with the late gentleman's wife. I think that after I tell you this, you will appreciate my reasons for guardedness. This story was relayed by Mr. Engstrom's widow:

Mr. Engstrom, while a member of the SpecOps unit of UNMIK Police, was ordered on a mission. Said mission took place 12 Sept. 2001. At least that is when they jumped off, in full battle gear. They were loaded into windowless planes, along with people they had never seen before, as well as shipping crates. They were flown to a location where they were loaded into helicopters. The helicopters were also "blacked out" so the occupants of the cabin could not see outside. They landed in what Mr. Engstrom described as a base built into the side of a mountain. A very large base. They deplaned and unloaded. At that point they were met by people with features that were consistent with those who occupy the Middle East. Upon unloading the crates, the unknown personnel opened the crates. In the crates were, as Mr. Engstrom described it: "Huge amounts of money". The money was transferred to the possession of the indigenous personnel. On 12 Sept 2001.

3. *who else was involved - were these CIA or DoD? UNMIK?*

There was his UNMIK Colleagues. He reported to his wife, and she reported to my friend, that he did not know who the others were. Need to know and all that. He was just a shooter. Nothing more.

4. *Estimate of how much?*

A huge amount.

5. *do they think he was killed to silence regarding 9-11?*

Hard to say. That said, if you were going to silence someone like him, with that potential knowledge, where better than Iraq? How better than an RPG?

6. *who was he working for? That would help in identifying who might have done it. Most of the IEDs are not insurgents, they are Mossad or US. Most UN work is contracted out.*

UNMIK was his employer, as he put it. On the other hand, he reported he did not know who the principals were on this mission.

7. *what was he doing in Iraq and working for whom?*

Blackwater.”

For those readers that caught [my recent OnlineJournal.com piece exposing Bechtel and Jock Covey](#), take note that [Covey was in fact in Kosovo](#) with the UN mission and so was Todd Engstrom, who we now know was sent on [a special payoff mission](#) right after 9-11 happened. Furthermore, we have hard facts to show that [Todd Engstrom was in fact with UNMIK](#) on the date in question so this payoff flight probably originated in Kosovo or nearby. [UNMIK, Kosovo, Engstrom and a post-9-11 payoff](#) are facts and information that have been withheld from all of us and it will not be hard to find out why through a Grand Jury.

“Then we have [the Clinton influence peddlers](#) trying to get the deal for Unocal [*March 1996: U.S. Ambassador to Pakistan, Tom Simmons, urges Bhutto to give exclusive rights to Unocal. Bhutto offended and demands apology.*] [By 1995 Bidas had hammered out a deal with the Taliban and Uzbek General Rashid Dostum to build the pipeline](#) and by 1996 had to file the “interference of contract” lawsuit against Unocal when they started getting jerked around in Turkmenistan.

“Bridas's \$495 Mln Award in Turkmenistan Dispute Left Intact
2004-03-22 10:23 (New York)
Bridas's \$495 Mln Award in Turkmenistan Dispute Left Intact
By Laurie Asseo

March 22 (Bloomberg) -- The [U.S. Supreme Court](#) let stand a [\\$495 million arbitration award to Argentina's Bidas Corp.](#)”

This entire “American soldiers blood for oil” formula this Bush Family has stuck in their head is about the lowest thing I have ever seen. Most Americans notice that they care not a bit, common characteristic for *nitwits*, about the death and maiming of our soldiers or how many bogus

enemies they are killing in the process. All they think about is oil and money, influence pimping and looking good for the cameras, while behind the scenes is a Draconian attitude towards all Americans that do not fit the Bush Family standards of wealth and elitism.

Ever wonder why this family seems to think sending people to die is “just another day at the office?” I wondered about that too and as I assembled my book the answer became plenty clear to see. If one is not a wealthy snob like them, it just doesn’t matter if a person comes home dead or alive or maimed.

Didn’t you get the memo? They are The Bush Family. They are better than other Americans. Don’t believe me; just ask them.

They think they can do any damned thing they want to do including wage war and terrorism against this nation to pave the way for stupid business and oil agendas that they cannot otherwise get done. Not because you and I are despised around this world, but because they and their despicable friends are despised around this world.

There was a post 9-11 payoff, the flight originated from the Kosovo area, and that took “pre-planning”. That simply means that someone in the United States was directly, and I mean DIRECTLY involved in the planning, financing, strategizing, and execution of 9-11 and whomever that is, each and every American wants that SOB and their SOB buddies swinging from the gallows pole.

That flight was sent to the Caspian Basin area to pay someone off, and Americans were there, saw it, and are now dead – at least Todd Engstrom. My hunch is – we dig deep with a Grand Jury we are going to find other Americans that have been silenced to protect this Bush Cabal and what they, Big Oil and Big Defense did on 9-11-2001.

Flights leave records and people who saw them, so regardless of where the flight came from that Todd Engstrom got on in full combat gear to guard the delivery of the money to Afghanistan, those trails can be found and proven.

In addition to finding the trail regarding Mr. Engstrom we have also had a high level former Bridas Corporation person come forward to shed even more light on the truth about what Bush & Co, Clinton, US oil companies, our CIA and others did to Bridas Corporation in Turkmenistan, Afghanistan and Pakistan to take over a deal that was otherwise not in the “hands of the right parties” as far as U.S. influence pimps were concerned.

Please sign the Justicefor9-11.org petition if you too demand the truth and justice regarding September 11, 2001. There is much truth to be found and we have a National Capitol that is full of people that have an aversion to the truth. It is time that we as American Citizens get to the bottom of what they fear so much and why they fear the truth.

It is time for all Americans to wake up. The Bush Mythology is all a lie.
